

Metaphors for LIFE and BUSINESS

Seeing the Forest or the Trees

August 13-16, 2010 (4 days, 3 nights)

Join us this summer as we take our leadership classroom outside for a unique exploration of the fundamental metaphors of life and business in the spectacular setting of Vancouver Island's west coast

The Refinery Leadership Partners is pleased to announce the launch of the second workshop in our Metaphors for Life & Business series. This workshop is entitled 'Seeing the Forest or the Trees' and will take us to a remote forest base camp on the west coast of Vancouver Island for a 4 day exploration of the fundamental metaphors of life and business.

Many leaders are caught up in the day-to-day challenges of steering their companies or departments through complex challenges and shifting priorities. Our Metaphors workshop is designed to mimic those same challenges and thought processes but in a different context. By shifting the context, we take leaders out of their day-to-day and help them consider their challenges in new and innovative ways.

Designed for senior and mid-level executives and managers, our Metaphors workshop allows leaders to practice the three R's of good leadership: Refresh, Reframe, and Rethink new solutions to old problems. In addition to structured and unstructured exploration of key metaphors, we'll be interweaving other structured sessions on topics such as:

- Emotional Intelligence in the workplace (includes individualized Emotional Intelligence in Action Profile™)
- MBTI Type in Leadership Development

The Refinery Leadership Partners is known for creating dynamic, experiential leadership development programs well grounded in business reality.
